

ACP Smart MedicineSM from STAT!Ref

Access Over 500 Clinical and Diagnosis Treatment Options on Any Device

ACP Smart MedicineSM is a web-based decision support tool designed to provide healthcare providers with rapid point-of-care evidence-based guidance. The only clinical decision support tool developed by a professional society, ACP Smart MedicineSM provides original content specifically developed for Internal Medicine.

ACP Smart MedicineSM is peer reviewed information designed to be the clinical practice manual for physicians, internists, residents, nurses and nurse practitioners, medical school faculty and students, as well as all clinical practice teams for the standard of care. This point-of care, evidence-based, decision support tool provides authoritative and current guidance for quality patient care.

- Targeted content and STAT!Ref's powerful search engine ensure you get relevant answers fast
- Bulleted, streamlined structure provides immediate access to hundreds of evidence-based recommendations on diagnosis, therapy, prevention, screening, and other topics related to the diseases that you treat every day
- Available on the STAT!Ref Mobile App for access anytime, anywhere

Recommendations are presented in a concise, organized format and include key information practitioners need to deliver high-quality patient care:

- Key points on the disease or condition
- Instructions on diagnosis
- Evidence ratings
- Common and effective therapy recommendations
- Tables of prescribed drugs for specific conditions
- Follow-up procedures
- Patient education information
- Links to current, underlying evidence
- Complementary information touches on alternative medicine, ethical and legal issues and more
- Content focuses on common and everyday conditions
- Recommendations (including evidence-based ratings) are regularly updated by ACP experts
- Ratings are based on the quality of the underlying evidence
- Drug information is presented in comparative drug tables
- Differential diagnosis tables help users make the right diagnosis quickly

Integrate STAT!Ref's ACP Smart MedicineSM with Content from the STAT!Ref Collection

ACP Journal Club, published by the American College of Physicians, is the quintessential EBM journal, and is often positioned near the top of the EBM pyramid. ACP Journal Club's general purpose is to select from the biomedical literature articles that report original studies and systematic reviews that warrant immediate attention by physicians attempting to keep pace with important advances in internal medicine. Articles are summarized in value-added abstracts and commented on by clinical experts.

AHFS DI[®] Essentials[™] is designed to offer health professionals easy access to knowledge that is critical at the point-of-care. Essentials[™] monographs draw on the meticulously evidence-based guidelines in the full AHFS DI[®] database, distilling for the health professional the essential information on prescription and key over-the-counter (OTC) drugs in an easy-to-use, highly structured outline format. Essentials[™] is designed to be the first resource practitioners consult for fast answers at the point of care. AHFS DI[®] remains the compendium that offers insight into the evidence behind the answers.
